TECHNICAL INFORMATION

Category: LED Flood Lights

Application: Ideal for landscape, security and other general-purpose outdoor lighting.

Material: Die-cast aluminum

Wattage: 12 watt fully sealed LED bulb

Voltage: 120 / 277 volts

Threaded Stem / Mounting: 1/2 inch NPT threaded stem. Easily mounts to either a weatherproof enclosure or cover with a 1/2 inch knock-out or threaded hub.

Finishes: Available with either a gray, white or bronze powder coat paint finish.

Dimensions: (Housing) 4.75 in. long, 2.75 in. in diameter. (Threaded stem) 2.75 in. fully extended.

Certification: c-UL-us Listed

Product Features:

Rugged die-cast aluminum housing with fully sealed 12 watt LED bulb that is c-UL-us rated for wet locations.

Produces 1,000 lumens of light (bright as a 60 watt incandescent bulb or a 20 watt CFL).

Light appearance: Warm White (3,000 degrees Kelvin)

Superior powder coat paint finish assures maximum weatherability and scratch resistance.

With pre-stripped high temperature lead wire; 6 inches in length.

Adjustable swivel arm with serrated teeth assures positive lamp positioning in the desired direction.

Packaging:

Individually packaged and bar coded.

Box Quantity: 4 pcs.
