

Switchgear Solutions

ABB

VALUE
PROVIDER

Spike Electric Controls, located in Houston, Texas, is an electrical gear manufacturer whose mission is to improve the accessibility and delivery of industrial and heavy commercial electrical gear for clients nationwide. As a result, our customers can receive the electrical components they need at a fraction of the lead-time.

Distribution Equipment

Switchboards - Switchgear

Standard lead time for switchgear is approximately 24 weeks

Product	Power Transfer Switch	Switchboard	Low Voltage Switchgear	Metal Clad Switchgear	Load Interrupter Switches
Trademark Name(s)	Safe Sync	Synergy	Synergy	SynergyVac	Master Break
UL certification	UL1008	UL 891	UL 1558	IEEE C37 .20.2	IEEE C37 .20.3
Typical application	Utility / Heavy Industrial	Heavy commercial / light industrial	Heavy industrial	Utility / heavy industrial	Utility / heavy industrial
Maximum amperage	1200	6000	5000	3150	1200
Maximum voltage	15KV	600V	600V	1.2KV - 38kV	1.2KV - 38kV

ABB's ReliaGear family of low voltage electrical distribution products
